

ImagePro 8909

DUKANE AV Products

- Progressive Scan Technology
- True XGA (1024x 768)
- Great Video and Data Images
- 2500 ANSI Lumens
- 300:1 Contrast Ratio
- HDTV Compatible
- Digital Keystone Correction
- 4X Electronic Zoom
- 5 Year Warranty

FEATURES

Dukane introduces the **ImagePro™8909**, featuring **Progressive Scan video technology**. Some projectors use a line doubler to convert the interlaced image into a progressive image. The Motion Adaptive Progressive Scan system is far superior, using Field Interlacing to provide twice as many lines. Line flicker is reduced and the newly generated lines provide the added sharpness, plus prevent any distortion even on a large screen, so images are clearer and a pleasure to view. Progressive Scan processing is the key to the high quality moving images achieved by this projector. It provides the original feeling of movie film. The Progressive Scan improves all video inputs such as composite, s-video, or component signals.

At just 14 lbs., the **8909** can be moved anywhere in your home, office, or school with little effort. The brilliant 2500 ANSI lumen light output can handle any projection requirements.

The 8909 is HDTV ready and also features 3RGB (computer) inputs, 3 video inputs, RS232 control, and mouse control via the IR remote. It has a native XGA resolution (1024 x 768).

SPECIFICATIONS

Brilliant 2500 ANSI lumens • XGA (1024 x 768) resolution • Digital Keystone Correction • Great images, flawless video quality • Power Zoom Lens • Freeze Function • Electronic Magnification 4X Pan • 2000 Hour Lamp Life • HDTV compatible • Accessories Included: Remote Control • Batteries • Powercord • Video/Audio Cable • Mouse Cable • Component Video Cable • RGB Cable and Operators Manual • Optional Travel Case with wheels and pull out handles. **Industry Leading 5-Year Parts and Labor Warranty, Free 24/7 Technical Support and 2 Year Free Peace of Mind Loaner Program** Specifications Subject

ImagePro 8909 Progressive Scan Technology Data and Video Projector Model 28A8909

Specifications (Specifications are subject to change without notice)

LCD Type	1.3" polysilicon active-matrix TFT x 3
Brightness	2500 ANSI Lumens
Resolution	1024 x 768 (HxV) pixels, XGA
Contrast	300:1
Scanning Frequency	fh 15-80 kHz, fv 50-85 Hz
Lens	Power Zoom (F1.7-2.3), 1.3X
Image Offset	45%
Keystone Correction	Digital Selectable
Aspect Ratio	4:3, 16:9, Selectable
Focus Range, Throw	4.6 to 37ft.
Image Range, Screen	30 to 300 inches
Computer Compatibility	VGA, SVGA, XGA, SXGA Mac, Mac 13" and Mac 16," SUN, SGI
Video Compatibility	NTSC, PAL, SECAM, S-Video, HDTV (480i, 625i, 480p, 1080i, 720p)
Image Control	Freeze function, Electronic Magnification 4x and Pan
Color Reproduction	24 bit (16.7 million)
Lamp	250W UHB
Lamp Life	2000 hours (typical)
Audio Inputs, Video	Speaker 2 x 1.2watt, stereo (1) Min DIN 4-pin, S-Video (1) RCA composite Video (1) Component video; RCA x3
Inputs, Computer	(2) Signal; D-sub 15 pin (1) Digital RGB, DVI
Inputs, Audio	(2) Audio, Stereo mini jack (1) Stereo, RCA x 2
Outputs	15 monitor, D-sub Audio, Stereo mini jack
Control	15 pin D-sub control, USB (B-type)
Fan Level	Ultra quiet.
Power	AC100-120V / AC220-240V 50/60 Hz, 400 watt
Size (WxHxD)	11.4" x 4.7" x 13.6"
Weight	14 lbs
Shipping Weight	22 lbs.
Carton Size	15.5" x 12" x 21.5"
Accessories Included	Remote control, Batteries, Power cord (U.S., UK, Euro), Video/ Audio cable Mouse cable, Component video cable, RGB cable, operators manual
Operating Temperature	0° to 35°C (32°- 95°F)
Safety	UL/C-UL
Optional Accessories	Lamps 456-219; Mac Adapter (110-3825)

Five (5) year Limited Warranty on Parts and Labor in North America, lamp excluded (for other locations, local warranties apply.) Includes Dukane's FREE 24 month Peace-of-Mind Loaner Program.

Overview

Dukane introduces the **ImagePro™8909**, featuring **Progressive Scan video technology**. Some projectors use a line doubler to convert the interlaced image into a progressive image. The Motion Adaptive Progressive Scan system is far superior, using Field Interlacing to provide twice as many lines. Line flicker is reduced and the newly generated lines provide the added sharpness, plus prevent any distortion even on a large screen, so images are clearer and a pleasure to view. Progressive Scan processing is the key to the high quality moving images achieved by this projector. It provides the original feeling of movie film. The Progressive Scan improves all video inputs such as composite, s-video, or component signals.

At just 14 lbs., the 8909 can be moved anywhere in your home, office, or school with little effort. **The brilliant 2500 ANSI lumen light output** can handle any projection requirements.

The 8909 is HDTV ready and also features 3RGB (computer) inputs, 3 video inputs, RS232 control, and mouse control via the IR remote. It has a native XGA resolution (1024 x 768).
